

In order to strengthen our digital presence, we are building a new comprehensive web development team in our headquarters in Volketswil (ZH). We are looking for

## Web Developers and Solution Architects

Joining us means becoming part of a young international team. In our HQ you will find open-minded and helpful colleagues from almost 30 different nations. We like transparent communications and a productive and inspiring working atmosphere. Your know-how and experience help moving our brand forward. Therefore we always have a listening ear for your ideas.

The team will

- Code, develop, implement, own and maintain our global ecommerce and brand presence
- Design and take the technical lead of our digital initiatives both in B2C and B2B channels
- Be a close partner for the marketing and commercial teams
- Provide technical guidance, mentorship, and coaching to solution partners
- Collaborate in the overall planning, organizing and delivery of all services

Skills we are looking for

- Ability to design and implement ecommerce platforms
- Develop and maintain high quality standards of code
- The ability to learn quickly and drive changes
- Practice in agile methods and tools
- Experience in web technologies such as Java, Java Script, HTML5, CSS
- Ideally specific know-how of Salesforce Commerce Cloud
- SAP UI5/fiori is beneficial

Not only your technical or software skills are valued, but also your mini-golf or table football talent. We support a dynamic workplace with TGIF drinks, company parties, and a wide range of additional activities like football, tennis, and ski days.

La Prairie is the leader in luxury skincare, present in 90 countries around the world. Synonymous not only with luxury, the La Prairie name evokes innovation, performance, high-touch service and Swissness — the purity, precision and excellence inherent to the extraordinary land that saw the brand's inception in 1978. La Prairie endeavours to fulfill a quest for timeless beauty through the highest standards of advanced technology combined with exquisite formulations and elegant packaging — elevating science to art.
